About Me

I am Saddam Muhammad Abdillah, Bachelor of Information Engineering at National Institute of Technology Bandung in 2024. My latest activity is currently active as a job seeker and during college mastered HTML, CSS, JavaScript, operating systems, troubleshooting network systems, software and hardware. I have an interest in a career as a Frontend Developer or IT Support Staff with the competencies I have and am good at communicating and working in teams.

Education

National Institute of Technology Bandung (2018-2024)

Bachelor's Degree in Informatics Engineering - GPA 3.25

- Proficient in Website Programming, Database Management, Digital Image Processing, Multimedia
- Final Project: Development of a disease classification system for tea leaves using EfficientNetV2B0 and DenseNet201 methods

SMK Negeri 2 Garut (2015-2018)

Vocational High School in Multimedia Engineering

- Proficient in computer assembly, Adobe Family applications, CorelDRAW, motion graphics creation, basic programming
- Competency Test: Creation of a motion graphic video for a public service announcement titled "Maniak Sosmed"

Experience

Internship at Diskominfo West Bandung Regency

(September 2021 – November 2021)

- Daily activities include documentation of the PLT Regent of West Bandung Regency & documentation of UMKM activities in West Bandung Regency.
- Daily tasks include copywriting Instagram captions, editing photos & videos from the coverage.
- Final Project: Development of the “Satu Data KBB” Website at Diskominfo West Bandung Regency (Role: Database Design).

Internship at Tertium Digital Printing Garut

(June 2017 – September 2017)

- Daily activities as a graphic designer, responsible for planning and conceptualizing all information and materials provided by clients, then visualizing them into final designs ready for print.
- Performing troubleshooting and fixing issues on computer software or hardware at Tertium Digital Printing.

- Final Project: Handling the design and production of organizational apparel under the guidance of an internship supervisor.

Activities & Latest Project

Nugraha Motor Garut Workshop Spare Parts Data Application Project (August 2020)

- Designed the layout for the desktop application to record spare parts.
- Created database designs such as Entity Relationship Diagrams, Relational Table Diagrams, and data normalization to eliminate or reduce data redundancy.
- Implemented the pre-designed layout into a desktop application using Delphi 7 software and Pascal programming language.
- Developed the previously designed database using MySQL DBMS with the assistance of HeidiSQL software tools.
